## Product Details

### Item specifics

Compatible Brand/Model:None

Brand Name:HAILANGNIAO

### Product Description

100% brand new and high quality

MPU-9250 module( 3 axis accelerator, 3 axis gyro and 3 axis magnetometer)

Chip: MPU9250; Power voltage: 3~5V

Communication mode: I2C / SPI; Gyro range: +/-250, +/-500, +/-1000, +/-2000dps

Accelerator range: +/-2G, +/-4G, +/-8G, +/-16G

Magnetometer range: +/-4800uF

Pin spacing:2.54mm

Size: 15mm\*25mm (approx)

## Package Included:

1PCS\*9DOF MPU 9250 SPI/IIC 9-Axis Attitude + Gyro + Accelerator + Magnetometer Module

**1:Before placing your order, please confirm pricing and other details with the supplier.**

**2:Please make sure you read the entire description and agree to the transaction before buying.**

**3: We accept payment through **PAYPAL** and **WESTERN UNION** for any other payment method,please contact us before bidding.For purchasing multiple items, Please email us for a combined invoice.Generally we would like to receive payment within 48hours if paying by paypa.**

**1:A full refund will be given if items are returned in their original condition.**

**2:Mechandise which is damaged or missing components is not refundable.**

**3:Buyers are responsible for return shipping with proper.**

**1:We provide 3 months warranty.**

**2:Buyers are only responsible for the return shipping fees for warranty items (In most cases,buyer will only have to return the problem components rather than the entire package).**

**3:Before returning items,please make sure you get to our return address,and write "gift" on the delivery sheet. Please use regular postal service and sand us the tracking number.As soon as we receive the items,we will repair of exchange them ASAP..**

**4:We do not assume any custom risk,if it easily cause any cuse any custom problem in your country we recommend you choose other shipping methods, just like china post Air.If you have other need, please feel free to contact us any time.thank you!**

**1:We rely on our reputation and custumere satisfaction to succeed.Therefor,your feedback is extremely important to us,please leave good feedback to us,and give five star, if you get satisfied with our goods and service.**

**2:We care about our valued customers,and will always try to help you.**

**3:PLS give us the opportunity to resolv any problem.We understand the comceins and frustrations you might have,and will try your best to resolve the issues.**

**4:PLS email us before leaving any negative feedback or opening any dispute on the site . We will help you to resolve the problem.**

## Features:

High quality PIC microcontroller development board.

Reset button.

4M crystal onboard ,Using socket,Crystal frequency can be replaced easily at any time

4 independent keyboard,connected to RB0 RB1 RB2 RB3

8 LED connected to the RD port,J3 plug LED is enabled, J3 unplug the RD port release completely.

standard RS232 communication interface, microcontroller computer communication interface.

USB power supply interface (you can use another power supply).

external 5V DC power interface

power switch.

ICSP simulation programming interface(K150 PICKIT2 PICKIT3 ICD2 etc.)

VCC GND Pin power expansion interface, can use for access or leads 5V power supply.

microcontroller IO port Pin leads,expansion convenient.

DS18B20 temperature sensor interface

LCD1602 LCD interface

LCD12864 LCD interface

## Package Contents

100% Brand New

1 x PIC development board(with PIC16F877A chip)

1 x USB cable

1 x CD(chips PDF,schematics,software,etc.Some has write in Chinese)

## Packaging Details

Unit Type:piece

Package Weight:0.02kg

Package Size:10cm x 8cm x 3cm
